PROFILE SUMMARY

UI / Frontend Developer and Designer with 3 years of experience in building interactive, user-friendly, and responsive web applications. Skilled in React.js, Node.js, Express.js, and MongoDB to build end-to-end solutions. Proficient in JavaScript (ES6+), HTML5, CSS3, Bootstrap, and REST API integration. Hands-on experience in converting UI/UX designs (Figma, Adobe XD) into pixel-perfect web interfaces. Strong understanding of cross-browser compatibility, Git version control, and frontend performance optimization. Passionate about clean code, scalability, and delivering high-performance websites. Available for immediate joining.

WORK EXPERIENCE

Echt Tech Consultancy Pvt Ltd, UI Developer

Oct 2023 – Sep 2025

- Conducts user research on designs which **improved 70% of older government projects**. Utilizing frameworks like Bootstrap and Tailwind CSS to create scalable and aesthetically pleasing interfaces.
- Designed and developed user interfaces for web apps, focusing on usability and visual appeal. Translated UX wireframes into responsive, interactive prototypes using HTML5, CSS3, and JavaScript.
- Collaborating closely with backend developers. Designed reliable UI components, ensuring mobile responsiveness.

Apcomp Infotech LLP, Frontend Engineer

Jun 2022 – Sep 2023

- Developed responsive landing pages using HTML, CSS, and React.js which **boosts user engagement with a 90% call-to-action rate**.
- Implemented real-time UI updates on FTP servers during live deployments.
- Designed promotional materials such as banners, pamphlets, and visiting cards using Canva.

PROJECT EXPERIENCE

Projects (<https://cppri.res.in>, <https://pmschrischools.education.gov.in>, <https://www.ravdelhi.nic.in>)

- Redesigned the frontend of an existing RAV Delhi Portal to improve user interface and enhance user experience. Implemented responsive design principles and integrated new features using JQuery, Bootstrap.
- Led the redesign and implementation of the Rabies Control Government Project dashboard, focusing on improving usability and functionality. Implemented significant development changes to enhance data visualization, user interaction, and overall performance. Utilized Bootstrap, JQuery to achieve scalable and efficient solutions, ensuring compliance with government standards and regulations.
- Enhanced user interface and experience through the redesign of frontend portals and government project dashboards. This involved prioritizing usability improvements and functional enhancements, including the implementation of scalable solutions using Bootstrap and JQuery. These efforts ensured compliance with regulatory standards while optimizing data visualization and enhancing user interaction.
